

Individual creativity session

Context

My client was interested in exploring creative possibilities as part of her career review. A creative session was offered which was co-facilitated by Andrew James Campbell.

Client comments

'Thanks for your email. I meant to write something straight after our session but got caught up in other things. I think the time was really interesting and a lot of fun, and although I don't think it has necessarily helped me understand how to develop the creativity into a longer term role it reinvigorated my interest in the creative process.

I'm going to develop this further on the days I have some time to myself - both the painting and poetry - for my own pleasure if nothing else and I'll keep you posted as to how this goes. As you mentioned, it will probably be easier to identify how to progress after I've done it for a while longer.

Good news is that I've started writing some basic stuff already so now it's just practice!
